

Complete Life Tables 2015-2016 for Singapore Resident Population

Complete Life Tables 2015 – 2016 for Singapore Resident Population

Key Trends

1. This publication reports the key trends in life expectancies for the Singapore resident population for 2016 based on the complete life table. Data for 2016 are preliminary. The final complete life tables for 2015 and preliminary complete life tables for 2016 are shown in the Annex. [Complete life tables since 2003](#) are available on the Singstat website¹.

Life Expectancy at Birth²

2. Life expectancy at birth of resident males continued to rise. In 2016, a new-born boy could expect to live to 80.6 years, higher than 80.5 years in 2015 and 77.8 years in 2006 (Chart 1).

3. Over the same period, the life expectancy at birth of resident females in 2016 remained the same as 2015 at 85.1 years and was higher than 82.6 years in 2006. Females continued to have higher life expectancy than the males.

4. Overall, the resident life expectancy at birth was 82.9 years in 2016, same as in 2015 but higher than 80.3 years in 2006.

Chart 1: Life Expectancy at Birth of Singapore's Resident Population

¹ http://www.singstat.gov.sg/publications/publications-and-papers/population#births_and_deaths

The methodology for constructing complete life tables for the Singapore resident population is presented in the Singapore Department of Statistics' Information Paper "Complete Life Tables 2003 – 2006 for Singapore Resident Population", which can also be found in the weblink above. Preliminary death rates for 2016 are derived based on the average number of deaths and mid-year population in 2015 and 2016.

² Life expectancy at birth is defined as the average number of years a new-born baby might expect to live, if he or she were to experience the age-specific mortality rates of the reference period throughout his or her life.

Life Expectancy at Age 65 Years³

5. Life expectancy at age 65 years improved for resident males to 19.0 years in 2016, up from 17.1 years in 2006 and 18.9 years in 2015 (Chart 2). Female life expectancy at age 65 years also rose, from 20.4 years in 2006 and 22.3 years in 2015 to 22.4 years in 2016.

Chart 2: Life Expectancy at Age 65 Years of Singapore’s Resident Population

Current life tables depict the mortality experience of a given population, assuming that this group is subject to the current age-specific mortality rates of the reference period throughout their lives. Life expectancy of persons at various ages is derived from life tables, and shows the average number of additional years that persons (at birth or at a specific age such as age 65 years) might expect to live if these mortality rates were held constant over their lifetime. It does not take into account future changes in mortality. The derived life expectancies give an indication of the average longevity of the population, but do not necessarily reflect the longevity of an individual.

³ Life expectancy at age 65 years is the average number of additional years a person who has reached the age of 65 years might expect to live, if he or she were to experience the age-specific mortality rates of the reference period for the remainder of his or her life.

Proportion of New-Born Babies Expected to be Alive⁴

6. The survival rates of the Singapore resident new-borns continued to improve over the past decade. In 2016, 89.1 per cent of baby boys could expect to be alive at age 65 years, higher than the 85.4 per cent in 2006 (Chart 3). For baby girls, 93.7 per cent could expect to be alive at age 65 years in 2016, up from 91.6 per cent in 2006.

Chart 3: Proportion of New-Born Babies Expected to be Alive

p preliminary

Singapore Department of Statistics
11 May 2017

⁴ The proportion of new-born babies expected to be alive at age x is computed as the number of survivors at age x (l_x) divided by the hypothetical population of 100,000 (l_0) at age 0, based on the age-specific mortality rates of the reference period.

Table A1: Complete Life Table for Singapore Resident Population, 2015

Age x (years)	Probability of dying between exact age x and age x+1	Number of survivors at exact age x	Number of deaths between exact age x and age x+1	Number of person-years lived between exact age x and age x+1	Total person- years lived after exact age x	Expectation of life at exact age x

SINGAPORE DEPARTMENT OF STATISTICS INFORMATION DISSEMINATION SERVICES

Statistics Singapore Website

The *Statistics Singapore Website* was launched by the Singapore Department of Statistics (DOS) in January 1995. Internet users can access the website by connecting to:

<http://www.singstat.gov.sg>

Key Singapore statistics are available via the following sections:

- **Statistics**
which provides access to the latest statistical findings of DOS as well as statistics compiled by Research and Statistics Units (RSUs) in ministries and statutory boards.
- **News**
which provides a listing of the news released by DOS and RSUs.
- **Publications**
which presents the latest editions of DOS' publications, papers and articles.
- **Browse by Themes**
which presents official statistics compiled by DOS and RSUs in the various ministries and statutory boards according to themes. Within each theme, relevant statistics and related press releases, publications and references are provided.

Statistical resources are available via:

- **Publication and Papers**
which lists the latest editions of publications released by DOS according to statistical domains at <http://www.singstat.gov.sg/publications/publications-and-papers>. All softcopy DOS publications are available for free downloading. Statistical tables of DOS publications in Excel format are also available.
- **Advance Release Calendar**
which provides a six months ahead advance release calendar of key statistical indicators.

The website also provides a convenient gateway to international statistical websites under the "Methodologies & Standards" section:

- **Guide to International Statistics**
which provides hyperlinks to international databases and classifications, as well as websites of international bodies and other national statistical offices.
- **IMF Dissemination Standards Bulletin Board**
which provides metadata about Singapore's key indicators in the real, fiscal, financial and external sectors, including dissemination practices and information about pre-release access of current indicators.

SingStat Express

SingStat Express is a personalised data delivery service which sends the latest press releases, notices of publication, newsletter, occasional and information papers to subscribers via email. SMS alert service is also available to local users. Subscription details are available from the *Statistics Singapore Website* (<http://www.singstat.gov.sg/express>).

SINGAPORE DEPARTMENT OF STATISTICS
INFORMATION DISSEMINATION SERVICES (*cont'd*)

Really Simple Syndication

Really Simple Syndication (RSS) is an easy way to stay updated on the latest statistical news released via the *Statistics Singapore Website*. The SingStat RSS feed delivers statistical news highlights and hyperlinks to the source documents whenever the updates are posted. More information is available at [http://www.singstat.gov.sg/services/really-simple-syndication-\(rss\)](http://www.singstat.gov.sg/services/really-simple-syndication-(rss)).

SingStat Mobile App

SingStat Mobile App provides users with ready access to the latest key Singapore official statistics through their mobile devices while on the go. Users may visualise data for the latest periods with some 200 charts of commonly used statistics from 25 data categories. The app is available for downloading in iOS and Android devices. More information is available at <http://www.singstat.gov.sg/services/singstat-mobile-app>.

SingStat Table Builder

The SingStat Table Builder contains statistical data series on the Singapore economy and population for users to create customised data tables, plot graphs and charts and export them in different file formats. Explore data trends with the e-service at <http://www.singstat.gov.sg/tablebuilder>.

E-survey

The *E-survey* enables business organisations to complete and submit their survey forms through the internet. Using secured encryption protocols, the *E-survey* ensures that the information transmitted through the net is secured and protected. The system features online helps and validation checks to assist respondents in completing their survey forms. With the *E-survey*, respondents do away with the tedious paper work and manual tasks of mailing or faxing their survey returns to the Department.

Statistical Enquiries and Feedback

If you have any statistical enquiries or comment or suggestions on our statistical publications and electronic services, you are welcomed to:

 Email us	at	info@singstat.gov.sg
 Fax to us	at	(65) 6332-7689
 Call us	at	1800-3238118* (local callers) (65) 6332-7738 (overseas callers)

* Calls from mobile telephone lines to 1800 local toll free number may be subject to mobile airtime charges as imposed by the relevant mobile service provider.
